

**SIMPLE.
SAFE.
SMART.**

Who is CANARX?

We're the simple, safe and smart way for self-funded prescription medication programs to save on brand-name maintenance medications. In fact, CANARX sets the standard for safety and savings in our industry.

Founded in 2002, CANARX was the first International Prescription Service Provider (IPSP) to introduce and supply a public sector program in America.

Since then, we've launched programs with states, municipalities, communities, school boards and private sector companies, saving their health plans, and members, millions of dollars on prescription costs.

WE SET THE STANDARD FOR PRESCRIPTION MEDICATION SAFETY AND SAVINGS

Simple

CANARX makes it easy for self-funded plans to provide their members with access to quality prescription medications delivered directly to their members' doors for zero copay.

Online enrollment is quick and straightforward.

It's easy for plan sponsors too. With ongoing support through marketing campaigns, enrollment sessions, seminars and presentations – we'll help get the word out.

Safe

Sourced from pharmacies in Canada, Australia and the United Kingdom, acknowledged by Congress as Tier 1 countries meeting or exceeding United States safety standards, medications are backed by a Quality Assurance Team as well as 20-plus years of experience in the industry. CANARX regularly visits all licensed pharmacies to ensure that all safety protocols and American/source country regulations are met.

CANARX offers hundreds of brand-name maintenance medications. But it's the prescriptions we don't facilitate – like generics, narcotics and temperature-sensitive meds – that make us the safest, most transparent program out there. Since the very beginning, our primary goal has been to ensure public safety.

Smart

There are numerous benefits to plan sponsors, including no administrative costs, liability insurance coverage, plan design and development assistance, website design and hosting, and, of course, the savings!

With plan savings averaging over 70% and a \$0 copay for participants – it's a WIN/WIN.

THINGS YOU SHOULD KNOW...

All CANARX programs are based on voluntary participation in order to comply with FDA directives that allow individuals to obtain medications for personal use.

International Formularies

The CANARX Quality Assurance Team of doctors and pharmacists developed and monitor a restricted formulary of over 300 widely used brand-name maintenance medications.

EXCLUDED FROM THIS LIST ARE:

- Acute medications (antibiotics)
- Medications requiring refrigeration
- Controlled substances (narcotics)
- Precursor substances
- Targeted substances (benzodiazepines)
- Lifestyle medications
- Medications that require ongoing monitoring/adjustments by primary care physicians
- Generic medications
- High-risk medications

The primary goal is to ensure public safety. Medications are packaged by the manufacturer, distributed by government-regulated wholesalers, prescribed by practicing physicians, labeled and dispensed by licensed pharmacists and delivered directly to the end user.

To place an international order, each prescription follows the equivalent fulfillment process as in America. Therefore, each international order must be reviewed and prescribed by a practicing licensed physician, dispensed by a practicing licensed pharmacist, then packaged at an accredited licensed pharmacy and shipped directly to the patient.

Safety Protocols

CANARX professionals regularly inspect all licensed pharmacies to ensure that all safety protocols and all American/source country regulations are met.

LICENSE VERIFICATION

INSURANCE REVIEW AND VERIFICATION

DISPENSING PROCEDURE REVIEW

COMPLETE AUDIT AND INSPECTION

Inspection visits ensure uniform safety standards and dispensing procedures. Each supplying pharmacy is then contracted or re-contracted to supply CANARX clients.

Other Safety Measures Include:

- Tier 1 Countries Only
- Licensed Facilities
- Product and Liability Insurance
- Manufacturers' Original Sealed Packaging
- Government-Certified Products

Program Launch and Service Support

Our staff is dedicated to providing 100% satisfaction to both the plan sponsor and all individual participants. Our goal is to provide a positive “yes” environment with direct lines of communication for the immediate resolution of all concerns.

Plan Sponsor Benefits:

- No administrative costs
- No-cost delivery interruption replacement
- Plan design and development assistance
- Website designing and hosting
- Seminars and enrollment presentations
- Local servicing
- Liability insurance coverage

Member Benefits:

- Ongoing open enrollment
- Dedicated toll-free telephone and fax numbers
- Quarterly Call Center contacts
- Copay reimbursement policy
- Certified manufacturers' sealed package guarantee

HIPAA Compliance

All materials and information acquired by CANARX are kept in the strictest of confidence and only used for the prescribing of medications. CANARX plans are designed to be completely compliant with the Canadian Privacy Laws (PIPEDA), equivalent to the U.S. HIPAA standards, and all privacy laws of each country supplying medications to plan participants. In order to share restricted information, CANARX requires a Business Associate Agreement in all cases.
